Our Products

A man is seen from the side, focused on his work. He is surrounded by numerous large, circular, woven bamboo baskets. The baskets are made of light-colored bamboo strips, with some showing a diamond-shaped lattice pattern. The man's face is partially visible, showing concentration. The background is filled with more bamboo materials and baskets, creating a sense of a busy, traditional workshop.

# About us

We are based in Indonesia. Yoga Surya Sejahtera is a company that has expertise in collecting the best products and then exporting these products to be sent abroad
